Getting Ready to Race

This driver is preparing for a race! An important step is putting on all his special clothing and safety equipment.

Circle the items he should wear in the race. Draw an X over items he should leave behind.

Did you know that many drivers have to wear a layer of fireproof clothing? It helps keep the drivers safe in a fire, but it's hot to wear. The temperature inside a race car can reach **140** degrees Fahrenheit during a race!
